WHICH PRODUCT FORMAT?

Compact Roll
Portable and easy-to-handle rolls, perfect for small spaces.

Centrefeed
Versatile mid-size rolls for use inside or outside a dispenser.

Jumbo Roll
Large rolls with big sheets and high capacities, for process environments.

Quarterfold
Pre-folded square sheets, taken one at a time from a hygienic wrap or dispenser.

Interfolded
Sheets folded together so that dispensing one sheet pulls the next through.

Pop-up Box
Small and portable dispensing box of individual sheets.

Brag™ Box
Mid-size double-sided bench-top dispensing box of individual sheets.

Wettask™
Refillable, airtight system to pre-soak cloths with your chosen solvent or disinfectant.

Pre-sat Cannister
Portable pre-saturated cannister with a strong lid to preserve wet wipes for long time.

WHICH COLOUR?

Colour-coded (Red/Blue/Green/Yellow)
Choose a colour-coded cloth to identify different wiping tasks in segregated cleaning.

Blue
Choose blue for food hygiene compliance, or for oil or water saturation to be visible.

White
Choose white to see that dirt has transferred from surface to sheet, or when dye-free is needed for use with chemicals.

OUR MAIN NON-WOVEN BASESHEETS

OUR NEW BASE-SHEET MATERIAL

Our **Treated Meltblown** basesheet for healthcare & critical hygiene environments.

A lint-free, premium option for the highest levels of cleaning, disinfecting and sanitising.

- Best overall chemical compatibility across leading chemicals
- Provides high levels of chemical absorption to allow for a more uniform release of chemical solutions across surfaces

Our **BCW (Bonded Carded Web)** basesheet for hygiene-sensitive environments in all segments.

Highly textured, with superior scrubbing capabilities and bleach compatibility.

- Highly compatible with bleach, peroxides and alcohols
- Soft to the touch
- Unfolded – customers do not have to take the extra step of unfolding the base sheet

Our **Hydroknit™** basesheet for process & maintenance environments.

The most versatile choice for everyday industrial cleaning tasks.

- Strong compatibility with peroxides and alcohols
- Highly absorbent with the ability to effectively dispense chemicals, reabsorb and re-release them
- Sustainable: Up to 70% of the base sheet fibres come from a renewable resource
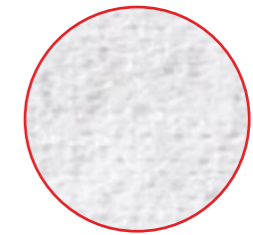

Our **Spunlace** basesheet for process & lint-sensitive environments.

Our strongest, most cloth-like offering.

- Best choice for alcohol and broad compatibility with a range of chemicals
- Very strong, thick and durable – ideal for extended use
- Clothlike – perfect for hard-to-reach areas

OUR UNIQUE TECHNOLOGIES

AIRFLEX™
Airflex™ is our unique highly absorbent paper technology. The paper is dried by having hot air blown through it, mixing up the fibres to create strength, and creating absorbency cells that soak up water fast.

HYDROKNIT™
Using our unique Hydroknit™ Material, WypAll® cloths are manufactured by entangling pulp and polypropylene together using high pressure water jets. The result is a highly absorbent cloth that is strong and durable when wet, contains no adhesives or binders, is resistant to most solvents, and can be used again and again.
