PLASTICAMBIENTE
PROJECT

MADE WITH
RENEWABLE ENERGY

SUSTAINABLE
PACKAGING

AWARDS AND
CERTIFICATIONS

The MD line is made up of right dose bottles, cans with dosing pumps, single-dose bottles and diluters in order to make the use of products easier and immediate.

ACCURATE DOSING

It was born from a very simple idea: reducing water contained in detergents, this leads to a drastic reduction of the plastic of the packaging.

LOW ENVIRONMENTAL IMPACT

This line of cleaners allows a substantial reduction of purchase, transport and storage costs and waste disposal, ensuring excellent quality and affordable price.

SIGNIFICANT SAVINGS

Containers bearing the PLASTICAMBIENTE sign are made up with at least 30% recycled plastic.

PLASTICAMBIENTE PROJECT

For the production of the MD line and all our detergents we only use energy from certified renewable sources.

MADE WITH RENEWABLE ENERGY

We distribute our products with paper packaging recycled and / or FSC cardboards.

SUSTAINABLE PACKAGING

We pursue high production and organizational standards that we monitor and guarantee through the ISO 9001, ISO 14001, ISO 45001 certifications. We also have obtained the CONAI award for sustainable packaging.

AWARDS AND CERTIFICATIONS

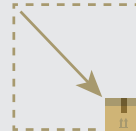

Less water. Less plastic.

Since 1987 **Interchem Italia** has been involved in **reduction of waste** through the continuous search for **new sustainable solutions** for professional cleaning. In recent years, the changes that have occurred in the clean market reflect the natural evolution of our company, shifting the focus on the search for **eco-friendly products**, which allow the **safeguarding of natural resources** and the **protection of the environment**.

This is why we have started from an easy concept for MD line: **eliminate most of the water present in traditional detergents**, that leads to:

**Reduction, up to 95%,
of the use of plastic for
the packaging and the
product packaging**

**Drastic decrease
weight and
volume for logistic
transport.**

THE MD LINE

Professional cleaners MD concentrates represent the solution that allows the creation of products for the professional cleaning diluted in simple, precise, safe way and without waste.

The MD system allows the preparation of:

- ready-to-use detergents
- detergents to be diluted.

HOW IT WORKS

The dilution of concentrated products takes place through practical systems of dosage like bottles, bucket, sinks and washer/dryer.

The dosage methods are:

single-dose

right dose
bottle

cannister with
pump

diluter

MD guarantees three important advantages:

Low environmental impact

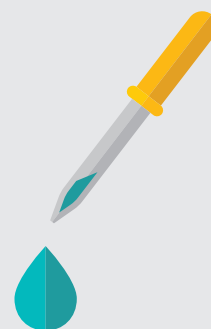

Reducing the water contained in detergents, we protect the environment and safeguard natural resources for future generations.

Thanks to this approach, we have been able to **reduce by 95% the packs and packaging** (plastic and carton) for this line and **the volume of goods to be transported**.

Accurate dosing

MD concentrated products are diluted using **accurate dosing systems** designed to make products **user-friendly**.

The instructions on the label on the various formats are **clear and intuitive** to guarantee operators the maximum accuracy during the operations of cleaning.

Significant savings

The MD line of concentrated detergents allows a substantial **reduction in the costs of purchasing, transport, storage and disposal of waste**, guaranteeing excellent quality at a competitive price.

WHO IS IT FOR?

The MD line has been created to respond to **all areas of professional cleaning**: restaurants, coffee-bar, office buildings, schools, rest homes, hotel and condominiums.

restaurants

FRUIT BATHROOM DETERGENT

BATHROOM

WHAT IT IS

Ultra-concentrated detergent to create ready-to-use products for daily bathroom cleaning. It performs a high-shine, scented descaling action. Ideal for removing and preventing limescale and grime on all washable surfaces in the bathroom: tiles, taps, sanitary ware, shower enclosures, mirrors, chrome fittings, etc.. Leaves a lasting pleasant hint of fruity fragrance in the room while treated surfaces are left sparkling clean and protected for a long time.

RECOMMENDED DOSAGE

Dilute the product in the specific 750 ml bottle, using the following DILUTION TOOLS: diluter - to 4% (orange nozzle - 4 litres/min) ● 5000 ml cannister with pump PUMP 30 - 1 Dose (30 ml) ● RIGHT DOSE bottle - 2 Doses each 20 ml (40 ml) ● single-dose 40 ml - 1 single-dose.

USE

Spray a small amount of product in solution directly onto the surface to be cleaned, wipe with a sponge or microfibre cloth and rinse with water. Avoid use on marble and natural stone.

ALKALINE BATHROOM DETERGENT

BATHROOM

WHAT IT IS

Ultra-concentrated detergent to create ready-to-use products for daily bathroom cleaning. Suitable for bathrooms with tops and/or marble or natural stone surfaces. The foam produced by a special spray head makes it safe for the operator and effective as it clings to the surfaces. It cleans and polishes chrome fittings, leaving the room smelling clean for a long time.

RECOMMENDED DOSAGE

Dilute the product in the specific 750 ml bottle, using the following DILUTION TOOLS: 5000 ml cannister with pump PUMP 30 - 1 Dose (30 ml) ● diluter - to 4% (orange nozzle - 4 litres/min).

USE

Spray a small amount of product in solution directly onto the surface to be cleaned, wipe with a sponge or microfibre cloth and rinse with water.

MD335

MULTIPURPOSE
AND GLASS
CLEANER

FURNITURE AND WINDOWS

WHAT IT IS

Ultra-concentrated detergent to create ready-to-use products for cleaning glass. Degreases and thoroughly cleans glass, mirrors, crystalware and hard surfaces of all kinds (desks, doors, windows, enamelled, chromed, tiled surfaces, ecc.). Diluted in different doses, it effectively performs both as window cleaner and as multipurpose. Do not use undiluted.

RECOMMENDED DOSAGE

Dilute the product in the specific 750 ml bottle, using the following DILUTION TOOLS: diluter - to 4% (orange nozzle - 4 litres/min) • 1 or 2 Doses each 30 ml (30-60 ml) for a ready-to-use product • 5000 ml cannister with pump PUMP 30 - 1 or 2 doses (30-60 ml) • RIGHT DOSE bottle - 2 or 4 Doses each 20 ml (40-80 ml) • For cleaning windows with a cloth and squeegee: dilute 2 Doses in 8/10 litres of water.

USE

Spray a small amount of product in solution onto the surface to be cleaned and dry with a cloth or paper towel. For more stubborn stains, increase the contact times.
